

We at Ecoflex Flooring Pvt. Ltd. are a part of Sah & Sanghi group of companies and offer specialty sports flooring products for applications such as indoor Badminton, Gym, outdoor Children play area flooring (Playsafe), Jogging tracks including IAAF approved Athletic tracks, Tennis, Basketball and Volleyball flooring.

Soft landings for tender feet

The growing years are an exciting time, full of activity.

Children are the ones who are most susceptible to accidents. Ecoflex Safety Flooring offers excellent impact absorption properties which cushion the probability of unpleasant injuries. This makes it an excellent surface for flooring in parks, schools and children play areas.

Ensuring a dream run

Jogging is an activity that is as demanding as it is beneficial.

It generates a lot of strain on the calves and the knees. Jogging tracks that have been laid out using Ecoflex Safety Flooring help minimize stress levels, owing to the excellent shock absorption properties. So that nothing else comes between you and your track.

Exceeding the weight of expectation

In addition to the latest fitness gear, now equip your gym with state-of-the-art flooring.

Soft and durable at the same time, Ecoflex Safety Flooring is functional while still appealing to one's aesthetic sensibilities. Apart from its noise reduction properties, it also protects the sub-floor from dropped weights. It is perfect to exercise on, since it is easy on calves and ankles. All in all, making it the unbeatable champion for years to come.
