Introducing

For more details please refer our Warranty policy

Warranty includes,

- Tread separation,
- Patch separation,
- Channel crack,
- Tread joint failures &
- Early wear under normal operating conditions.

The Warranty does not include

- Uneven wear due to mechanical defects,
- Early wear due to improper dualling,
- Centre wear /shoulder wear due to improper air pressure,
- Casing burst due to impact of foreign objects etc.
- Channel cracks due to under inflation & or overload,
- Early wear, tread chipping due to extreme surface & operating conditions ,
- Or any such failures arising out of operational hazards & vehicle defects

TYRESOLES CERTIFICATION CRITERIA

What are we Certifying?	What does it mean to you?	How will you get benefitted?
First Lifecycle Casings only	Not retreaded casings	Can be retreaded again
Popular Branded Standard Profile Casings	Not Cheap Tyres with low profile	Stronger casings with greater traction
Casings with shore A hardness of 65+2	Not old, Hard & Brittle casings	Less failures & more retreadability
Casings with Zero Beed Damages	No Beed pinching or Chipping	Minimum chances of Beed failures.
Intact Inner liners	Not Run flat Casings	No damages to tubes & flaps
Casings with Zero Sidewall Damages	No Radial cracks	Minimum chances of sidewall bursts
Casings with Zero Shoulder Damages	No major Lug Chippings/Strain Marks	Minimum chances of shoulder bursts
Maximum 3 Reinforcements up to Bp5	No major ply damages or cuts.	Minimum chances of patch bursts
Casings without air separations	No bulge or air trap within casings	No bursts due to separations
Retreads with Tear Strength of >6 Kg/mm	Strong tread bonding	Minimum chances of tread separation

ECOMILES ASSURANCE

Every ECOMILES Tyre comes with a replacement Guarantee, if the tyre develops air separation within one month from the date of invoice.

ECOMILES also carries Two Years Retreading Warranty from the date of invoice, against any failures arising out of defective material and/or workmanship.

Consequential Damages*

TYRESOLES will not be responsible for any consequential damages arising as a result of claim tyre. The maximum compensation will be limited to the invoice value of the tyre.

Prorata Basis*

Tyres under claim will be settled on prorata basis only i.e % of unused tread depth. Eg: if a tyre comes under claim after 30% of tread wearing, then either a credit note will be raised for 70% of retreading amount or a tyre will be reprocessed with 70% of retreading amount.
